Course description

Written Expression is a 2 SWS contact course with additional homework, coupled with 2 SWS of self-study; thus comprising 4 SWS + homework overall. The contact hours will be devoted primarily to writing skills and the self-study hours to reading skills. Students will complete regular written assignments, including three medium-length essays, and must compile a reading portfolio containing annotated texts, notes, grammar and vocabulary work. Their aim will be to expand the range of structures and lexis they have at their disposal when writing formal, academic English. Work in both components of the course must be above a pass level for students to receive a credit for the course.

Extensions will only be granted in exceptional circumstances.
