Modul:	[ENG-4, ENG-4a, ENG-10, ENG-11, AA7, AA9, LAA8, LAA11, ENGAGE-M01a, ENGAGE-M02]
Art der Veranstaltung:	**Seminar II**
Veranstaltungsnummer:	
Zeit:	**TBA**
Raum:	**TBA**
Beginn:	**TBA**

Course description:

This course introduces the field of corpus linguistics in general and provides a broad perspective on the application of different resources to the study of language. It focuses on the issues about the design, collection and analysis of various corpora (BNC, COCA, The Trinity Lancaster Corpus, COHA, NOW, etc.). In practical sessions, course participants learn how to search the corpora using the software tools provided. The course offers some practical implications to the study of first, second, third and additional language acquisition, teaching and learning, multilingualism, and media linguistics. This seminar takes into consideration the academic and professional needs of students. Participants of the seminar can explore various research methods, case studies and data depending to their interests, background, experiences, and programme of study.

In order to successfully follow and complete the course it is necessary that you have taken and passed the module *Introduction to Linguistics (Einführung in die Linguistik)*.

Requirements:

Students are expected to attend class regularly and participate in discussions. Students who require full credit points are required to submit a written report.

Extra Credit:

There are no extra credit assignments for this course. If you miss 3 or more classes, you may submit a make-up assignment. Please contact me when you have missed, or know you will miss, 3 or more classes.
