Art der Veranstaltung	Vorlesung
Veranstaltungsnummer	53-503
Zeit	2st. Mo 14-16
Raum	Ü35-01002
Beginn	01.04.2019

Kursbeschreibung:

This lecture provides students with an in-depth overview of the structure of the English language in terms of syntax, morphology and phonology. We will focus not only on the structure of standard English, but also how the structure of English changes under the influence of the media and in Second Language Acquisition. Most classes will involve periods of discussion, interaction and application of concepts introduced earlier such that students have an opportunity to explore and challenge the content of the lecture.
