Beginn.....	16.10.2019

Course description:

The colloquium prepares candidates (BA, MA) for their final exams and theses. We focus on practical considerations: how to find suitable topics with a specific focus and research question, how to properly structure and effectively write a thesis, and how to prepare for the oral exam with tools such as the mind map, etc.

The seminar requires regular attendance and participation. Students are expected to present their projects and discuss them in class.

Note: Students who are registered but who do not show up for the first session will automatically be set “inactive.”
